

Hoover Again Asks U. N. Reorganization With Reds Shut Out

By DEWITT MACKENZIE

Former President Herbert Hoover has returned to his advocacy of the scrapping of the United Nations organization and the establishment of a new one with the Communist countries shut out.

Poor Risks May Be Booted Out

WASHINGTON—(AP)—A bill giving 11 government agency heads the power to fire any employees they consider risky to U. S. security was handed over to the Senate today following top-heavy approval in the House.

By a vote of 327 to 14, the House late yesterday enthusiastically endorsed the proposal. It means that employees deemed to be bad security risks could be booted out without appeal.

There are about 800,000 federal employees in the agencies affected. While some House members raised the cry of "dictatorship," an overwhelming majority shouted approval of giving most government department chiefs "absolute discretion" to fire civilian employees they consider dangerous to the national security.

The authority would apply to heads of the State, Treasury, Commerce, Justice and Defense departments; the Army, Navy, Air Force, Atomic Energy commission, the National Security Resources board and the National Advisory Committee for Aeronautics.

Their determination of a "bad security risk" would be "conclusive and final," and the only review of a case would be by the agency head himself or someone designated by him.

The door was left open for extension of the powers to other agency heads by empowering the president to designate such additional agencies he deems necessary.

The House beat down three attempts to provide appeals procedure to protect employees from unjust or arbitrary firing. A roll call vote of 193 to 144 turned down a move to provide for employee appeal to the civil service commission.

Rep. Jensen (R-Iowa) termed the bill a move "to clean a bunch of rascals out of the government," while Rep. Chelf (D-Ky) declared the security powers should be granted or "we're going to find a lot of so-called panics giving away our information."

Williams Leads Campaign To Sell Michigan Fruits

LANSING—(AP)—Governor Williams, who is becoming a veteran huckster, set out today to sell raspberries and sour cherries.

He promised a committee of growers and grocers yesterday to lead a statewide campaign to dispose of two crops, both bearing in bumper amounts in the face of a declining price.

He previously had helped rescue surplus crops of beans, grapes, apples and potatoes.

Williams told the conference that Secretary of Agriculture Brannan had notified him the U. S. Commodity Credit corporation recognized a "serious" situation in the cherry crop and would consider a solution soon. The governor has asked for federal price supports for the crop.

The group agreed to push raspberry sales next week and then turn to cherries.

was "unanimously and loudly denounced" by the state department and by U. N. officials. He declared that now Korean developments demonstrate the "inevitable necessity" of his program. He added that "today the mobilization of non-Communist nations free from Russian domination is slowly unfolding."

War Isn't Solution
The non-Communist world, said Mr. Hoover, is faced with three possible courses if it would have peace. They are:

1. "Shall it go to war to wipe Communism from the face of the earth? My answer is No."

That undoubtedly would be the consensus of observers, as I see it. As a matter of fact you can't kill an ideology by war, unless you wipe out every mother's son who fancies it. The only way to counter an ideology is by presenting a better ideology.

2. "Should we return to the illusion that the Kremlin has changed its gospel and will work for world peace through the United Nations? That would seem futile."

Why would it be futile? Because one of the cardinal tenets of Communism is that the ideology must be spread by revolutionary force. The establishment of a Red government MUST be accompanied by an upheaval, to impress the proletariat.

There hasn't been the slightest indication of any change in the Kremlin's program. And all Moscow's relations with the U. N. have been calculated to further Communist aims. The program of the Communist bloc in the U. N. has been consistently one of non-cooperation.

3. "Shall we try to build the United Nations so as to confine Communism to the peoples already enslaved, estop military aggression and trust to time for this evil to abate? My answer is yes!"

In this third alternative we of course have a highly controversial idea of reorganizing the U. N. so as to exclude the Reds and confine it to the democracies. As this column has pointed out before, that would be recognition of the fact that, to all intents and purposes, we already are divided into two worlds—Democracy and Communism. The ideal of one world is a long, long way off.

Having taken this drastic step we should, I judge, continue to block the advance of Communism through aggression by defending victims like Southern Korea with military force. Would that be feasible? Yes, costly but feasible, because the democracies—if they stand together—have the balance of power economically and militarily.

Joe Visits All 280 Of His War Buddies

DOYLESTOWN, Pa.—(AP)—Gunter (Joe) Pretsch of nearby Blooming Glen is satisfied today that he visited his wartime buddies—all 280 of them.

He left home 28 months ago in a battered army vehicle.

To talk with 280 of the men who had served with him in Europe, Pretsch traveled 38,000 miles into 39 states, Canada and Mexico.

Pretsch said he picked apples, drove trucks, cooked, sold fishing equipment, cantaloupes and watermelons and shoveled 80 tons of salt to help defray expenses.

He estimated the visits cost nearly \$4,000.

Elks Near End Of National Meeting

MIAMI, Fla.—(AP)—The Nation's Elks planned to install Joseph B. Kyle of Gary, Ind., as Grand Excited Ruler today and then wind up their 86th annual convention.

Kyle and other new officers of the Grand Lodge will be installed at a brief business session before adjournment at noon.

The bulk of the convention's business was completed yesterday with impressive memorial services for 13,271 members who died during the year.

Theft Of Picnic Tables Protested

LANSING—(AP)—Could you call a gent light-fingered who steals five of those big roadside picnic tables?

The state highway department called him something worse than that and said that any more such thefts "cannot be tolerated."

It reported five tables were lifted from Monroe county recently. Prosecution was promised for anyone removing the tables.

ADM. KIMMEL ILL.

NEW LONDON, Conn.—(AP)—Rear Adm. Husband E. Kimmel is seriously ill after suffering a heart attack. The admiral, who was in command of American naval forces at Pearl Harbor, Dec. 7, 1941, the day the Japanese attacked the Pacific fleet, became ill last Friday.

Yank Losses In Korea Revealed

TOKYO—(AP)—General MacArthur's headquarters announced tonight that American losses in the Korean war to date have been 42 killed, 190 wounded and 256 missing.

The announcement said "losses sustained by the American forces have been greatly exaggerated in press reports from the front."

"Many of the missing are undoubtedly men who, in the confusion of the fighting, have lost touch with their own units and will eventually return."

The announcement continued: "Probably the most flagrant of these exaggerated reports dealt with the so-called 'lost battalion' of the 34th Infantry which was reported as being completely annihilated whereas its actual losses amounted to only two killed, seven wounded and 12 missing."

Reports of American losses have been exaggerated because, the statement said, the army has avoided any military censorship or undue restrictions on the movements of war correspondents.

It said this was the first time in modern war that such an experiment had been tried.

Reports of American losses, it said, are "in any case, greatly and repeatedly reflected the emotional strain normal to those unaccustomed to the sights and sounds of battle," the statement said. "Exaggerated stories obtained from individual wounded or mentally shocked have given a completely distorted and misrepresentative picture to the public."

LONGVIEW, Wash.—(AP)—Two young girls were fatally wounded yesterday in a one room cabin by a shotgun blast.

A 7-year-old boy, uncle of one of the girls, tearfully told authorities his attempt to shoot a crow was responsible for the accident.

The victims were Linda Ray, 11, of Tumwater, Wash., and Jeannette McCoy, 7, of Kelso.

The little boy who told coroner Gordon Quarnstrom he fired the fatal shot was Marty Doble, a neighbor of the McCoy's. The Ray girl was visiting the Dobiles. Marty was Linda's uncle.

The girls were in the one-room Dobile cabin. Marty grabbed a 12-gauge shotgun, intending to shoot at a crow through the window.

Somehow the weapon slipped and discharged. The Ray girl was hit in the right lung. Pellets lodged in the neck of the McCoy girl.

NMC Professor Is Electrocuted

SAN JUAN, Tex.—(AP)—Mickey Gustafson, 43, of Marquette, Mich., was electrocuted yesterday at the home of friends here.

Gustafson, an associate professor in commercial education at NMC, had offered to change some electric wiring at the home of Mr. and Mrs. Mel Campbell.

He crawled under the house to cut a wire on a dead circuit. Instead, he cut a live wire.

Gustafson and his wife had been visiting here. His body was sent to Marquette for burial.

Fire Hazard Halted By Heavy Rainfall

GRAND RAPIDS, Mich.—(AP)—Heavy rains in northwest Michigan last night halted danger of fires in parched forest areas. The rain fell over a three hour period, and temperatures dropped from 88 to 70 degrees in that time.

The Manistee area, where forests had reached the fire-hazard stage, received only 4.8 inches of rain during April, May and June. The average for that period is 10 inches.

High Standards Balk Enlistments

NEW YORK—(AP)—The relatively high intelligence now required of an army recruit has eliminated 34 per cent of those who have tried to enlist in that area since the outbreak of fighting in Korea.

Recruiting officials here said that from July 3 to 10 only 49 per cent of the 591 men given mental examinations were able to make a passing score of 90.

Doughboys Dig In For Stand On Kum River

Lt. Gen. Walker New Commander

(By The Associated Press)

TOKYO—(AP)—Weary, tank-isolated U. S. doughboys dug in today on the Kum river's south bank for a new defense against North Korea's Red horde. They had a new commander, Lt. Gen. Walton H. Walker, veteran tank fighter of World War II.

The front was relatively quiet. Presumably the North Koreans were regrouping for an assault across the vital Kum, last natural barrier in South Korea. Allied warplanes pounded transport and supply routes north of the river throughout the day.

General MacArthur announced the appointment last night of Walker, chief of the Eighth Army in Japan, as commander of ground forces in Korea.

Fought With Patton
The Eighth Army has set up an advanced command post in Korea and taken over the job of U. S. army forces in Korea (Usafik). The latter command was abolished.

Walker commanded the famed armored "Ghost Corps" of General George Patton's Third Army in Europe. He was cited by Britain and praised by the U. S. war department (now the department of the army) for his coordination of infantry and armored groups.

Walker made a flying visit to the Korean fighting front Saturday. MacArthur did not say if Walker would return to Korea.

Gen. J. Lawton Collins, army chief of staff, and Gen. Hoyt Vandenberg, defense secretary, were in the city.

John P. Norton 1879-1950

DEEP sorrow has enveloped the Escanaba Daily Press with the death of John P. Norton, founder and publisher of this newspaper.

Mr. Norton was more than an employer to the men and women of the Escanaba Press. He was a confidante and a true friend. He possessed a vast knowledge of human nature and was a staunch believer in the dignity of the individual.

John P. Norton was an outstanding newspaperman. He founded the Escanaba Daily Press in 1909 as a morning newspaper in competition with another paper then being published in the community. Mr. Norton directed the Escanaba Press to its present status as one of the outstanding small town daily newspapers in the Middle West. He accomplished this with a lot of hard work on his part, a determination to succeed and by developing a staff of loyal workers.

Attending to Mr. Norton's virtues as a humanly employer is the fact that a majority of the Daily Press staff in all departments are men and women who have 20, 30 and even more years of continuous service as members of the Press "family."

The death of Mr. Norton is a severe loss to the Daily Press employees, but it is an equally severe loss to the Escanaba community. Until stricken with the illness that ultimately resulted in his death, Mr. Norton was the spearhead of virtually every project for community betterment, and the designer of many of those projects. He was a leader in organizing and in promoting the Escanaba Chamber of Commerce and likewise was a founder of the Upper Peninsula Development Bureau. Few men have given more of their time, their efforts and their money for causes of civic improvement than John P. Norton.

Mr. Norton possessed an unusually charming personality that radiated friendship and confidence. Through the years he acquired a veritable army of friends in all walks of life, not only in Escanaba but throughout the state of Michigan and in neighboring Wisconsin. In newspaper circles particularly, he was held in the highest esteem.

The imprint of Mr. Norton's character and his ideals will be reflected in this community for many years to come.

Bolivia Revolt Plot Is Nipped

LA PAZ, Bolivia.—(AP)—Police say they have squelched a plot to overthrow the Bolivian government and have seized a large cache of arms.

Col. Isaac Valcinti, director general of police, said several rebel groups, reportedly led by members of the National Revolutionary movement and the Bolivian Socialist Falange, were nabbed in dawn raids throughout La Paz.

A semi-official source said more than 40 persons were arrested.

Vincinti said the plotters had intended to turn the government over to former Gen. Froilan Callen, who led an abortive revolt in August and September of last year. Calleja was said to be a fugitive near the Brazilian border.

90 South Korean Legislators Lost

SOUTH KOREA'S Temporary Capital—(AP)—Ninety of the 210 recently elected members of the South Korean national assembly are unaccounted for.

Some are known to have been caught in Seoul by the swift Communist North Korean thrust, said Chairman Chang Taik Sang said.

He said it was not known whether any had joined the Reds voluntarily.

About 80 assemblymen are touring South Korea, informing their countrymen of United States and United Nations aid.

Assembly business is handled by a 10 man emergency committee, named just before the government fled Seoul.

War Ditches Chance For Excise Tax Cut

By FRANCIS M. LEMAY
WASHINGTON—(AP)—The Korean war, with its growing costs, has ditched the \$1,010,000,000 excise tax slashing bill.

On advice from the White House that "it would not be prudent in the light of developments in Korea" to cut any taxes now, the Senate finance committee put the bill aside, postponing action indefinitely.

Senator Byrd (D-Va.) a finance member, said: "In my opinion this tax bill is dead."

Many in Congress expect that the treasury department will ask for higher taxes rather than lower, if the Korean situation does not improve. However, it was said at the treasury that no decisions on such a request have been made.

Technically, if the situation improves swiftly, the tax cut bill can be taken up later. Few, it was said, would hold any hope for action this year, however.

It looks as though the excises, many of them imposed in World War II, will stay at least until the Korean war is over.

Mightiest Air Blow Is Struck By Big Planes

One Aircraft Is Reported Lost

BULLETIN

WASHINGTON—(AP)—The Air Force said today it had received a report that a B29 Superfortress has been shot down by enemy fighters near Seoul, the first reported B29 loss to enemy action.

By RUSSELL BRINES
(Associated Press Tokyo Bureau Chief Representing the Allied Press)

TOKYO, Friday.—(AP)—Nearly 50 B-29 Superfortresses plastered a key North Korean military target with 500 tons of bombs today in the mightiest single air blow of the Korean campaign.

The mission inaugurated mass precision bombing by two groups of superforts rushed here from their U. S. west coast bases.

World War II trained crews flew the four engine bombers from two far eastern bases through rain and mist for the largest mass foray of the campaign. The target was a railroad center north of the 38th parallel.

"Uncle Joe Will Sit Up"

It took exactly eight days to deliver this new punch—from the date overseas orders were first delivered to the release of bombs. In that time the men, their planes and most of their equipment were moved 8,000 miles and prepared for an air blow that meant a round trip of more than 1,500 miles.

Air officers said this proved the speed with which strategic bombing assignments could be carried out throughout the world.

One of the aircraft commanders, Lt. James T. Patrick of Carnation, Wash., said it differently: "This will make Uncle Joe sit up and take notice."

I was in Patrick's plane on an assignment representing the combined allied press. But a few miles after granting our plane—and its 20,000 pounds of bombs—off the ground, we had to turn back with a faulty motor.

The remainder of the sleek bombers made a perfect overwater rendezvous and released their bombs at 11:02 p. m. Japan Daylight time, Thursday, (8:02 a. m., EST Wednesday) through mist so thick that radar was used to sight the target.

Maj. Gen. Emmett (Rosy) O'Donnell directed this first mission of his new command, the Far East Bomber Command (provisional). The 43 year old two star general, once a West Point football coach, led the first World War II B-29 raid on Japan.

About 60 per cent of the men in his new command are combat tested, veterans of pattern bombing missions from Germany to Japan.

Tons Of Coconuts Get An Apartment

LONDON.—(AP)—Nigerian student Obabunmi Aina got himself a six-room apartment in crowded London because he had plenty of coconuts.

Aina told a rent tribunal yesterday he paid his landlord, a grocer, \$224 and 3,200 coconuts as a premium for the apartment.

The coconuts? Aina asked his folks back in Nigeria for some and they sent him two tons.

Smog Won't Have That Coffee Smell

LOS ANGELES.—(AP)—What-ever else the smog may smell like it won't be coffee from now on.

Smog control chief Gordon P. Larson gave the coffee companies a pat on the collective bean yesterday. Smoke from their roasting ovens has all but been eliminated from the Los Angeles—ah—air.

Larson said 15 of 18 plants cited are now smokeless, the other three are installing preventive equipment.

81 Degrees Still High For Year

Yesterday's 79 Short Of June 9 Mark

The temperature reading of 79 yesterday fell slightly short of the year's high of 81 degrees recorded at the local weather station June 9.

But the high humidity—it was in the middle 90s—made Escanabans feel it was the warmest day of the year.

According to the monthly weather summary, June's temperature averaged 59.4 degrees or 1.3 degrees below normal. The low was 38 on June 17.

Precipitation for the month was only 1.13 inches or 2.09 inches below normal. Total precipitation for the year so far is 12.48 inches, or about three quarters of an inch less than normal, the local weather station reported today.

Highest wind velocity during the month was 35 miles an hour from the northwest on June 16.

The latest killing frost of the current growing season was recorded June 21.

Lions Cabinet In U. P. Appointed

IRON MOUNTAIN, Mich. — Howard Emich, Menominee, was elected deputy district governor and Charles Furno, Iron Mountain, was chosen zone chairman at a regional meeting of Lions clubs here last night. As such they will be members of the cabinet of district governor Ed Berg of Spalding.

Presiding at the meeting, Berg introduced Roland Larson of Powers as his newly appointed cabinet secretary-treasurer. Other members of the cabinet will be named at meetings in the other four regions of the Upper Peninsula district. E. E. Cookson, Manistique, past district governor, is automatically a member of the cabinet.

Emich is associated with radio station WYAM at Marinette and is president-elect of the Menominee club. Furno, treasurer of the Iron Mountain club the past three years, is secretary-treasurer of the Woodland Manufacturing company here.

The best temperature for the storage of Irish potatoes is given as 40 degrees.

31 Ordered For Physicals

Delta Draft Board Learns Quota

Delta county draft board has been ordered to have 31 eligible draftees ready for physical examinations between July 15 and Aug. 15.

The order was issued today in Lansing by Col. Glenn B. Arnold, state draft director, who said the pre-induction call is intended to fill Michigan's quota of 946 men to be drafted by Sept. 30 and to build up a pool for expected October calls.

The state as a whole has been ordered to have 5,675 men ready for physical examinations for the July 15-Aug. 15.

Other Upper Peninsula county quotas include: Alger, 10; Baraga, nine; Chippewa, 42; Dickinson, 27; Gogebic, 30; Houghton, 61; Iron, 19; Keweenaw, four; Luce, seven; Mackinac, nine; Marquette, 43; Menominee, 24; Ontonagon, 11; and Schoolcraft, nine.

Passengers Taken Off Liner After Ship Hits Reef

QUEBEC — (P) — Tugs and launches shuttled the St. Lawrence river early today removing 780 passengers from the 20,000-ton liner Franconia which rammed into a shallow reef during the night one mile off of Quebec.

The Veteran Cunard-Donaldson cruise ship hit the shallows at Pointe A Tauxe at 8:45 p. m. (EST) 45 minutes after clearing Quebec port en route to Liverpool. A company spokesman said no details could be given as to what caused the accident, but that a statement would be made soon.

Passengers, many of whom were attending a movie when the big ship hit, said there was a "terrific jolt", but no one appeared to be injured.

Police School Classes Reopen

Civilian Defense Work Is Studied

Classes in the police school, sponsored by the Escanaba police department, have been resumed, it was announced today by Glenford Leonard, director of public safety.

The police school refresher courses were begun in the spring of 1949 by James Fitzharris, assistant city attorney, and Chief of Police Michael Ettenhofer, and continued under the direction of Jack Koernke, former director of public safety.

At present, concentration is on the study of the police department's role in the area of civilian defense and on uniform classification of crimes and complaints in accident reporting.

Criminal law, pistol range training and police defense tactics are other sections of the continuous program.

Instruction in routine police duties will be given by superior officers of the department. The department will work in cooperation with agencies of the city, state and federal government in the study of related outside activities.

Search Pressed For Negro Rapist

DETROIT — (P) — Police carried on a house-by-house search in suburban River Rouge today for a Negro who viciously attacked and attempted to rape a white woman yesterday.

The 23-year-old woman, pushing her seven-months-old son in a baby carriage, was waylaid under a viaduct on busy Coolidge highway, but the view of motorists was blocked by a pillar.

Charles Basser, a Chicago visitor walking on the other side of the highway, threaded his way through the traffic to aid the woman. The attacker fled, outrunning Basser.

Hollywood Rites For Buddy DeSylva

HOLLYWOOD — (P) — Entertainment leaders gather today for final rites for George G. (Buddy) DeSylva, song writing showman who died Tuesday at the age of 55.

Charles Brackett, president of the Academy of Motion Picture Arts and Sciences, will deliver the eulogy. Pall bearers include: Directors Leo McCarey and David Butler, writer Howard Emmett Rogers, William Seeman, Leo Fitzgerald and Grant Tinker.

It was disclosed that DeSylva, who reaped a fortune from his songs and musical shows, was a collector of French impressionist and post-impressionist paintings and had given the Los Angeles county museum canvases valued at \$400,000.

"Gift of his collection gave the museum one of the world's greatest collections of modern art," said William H. Schuchardt, president of the museum governing board.

Two Children Hit By Cars

Thorin, Pepin Boys Taken To Hospital

Two children, Thomas Thorin, son of Mr. and Mrs. John Thorin of Escanaba, Route One, and Keith John Pepin, son of Mr. and Mrs. Victor Pepin of 636 North 20th street, were injured this morning when they were hit by cars.

Both were taken to St. Francis hospital and are receiving treatment there. The Thorin boy, who is 3, suffered bruises about the face, but is not seriously injured, the sheriff's department reports. Keith Pepin, 9, suffered a fracture of the right arm.

The Thorin child was crossing U. S. 2-41 near the Dells with a group of youngsters and stepped back into the highway in the path of a car driven by Donald Dahlke, 16, of Escanaba, the sheriff's department reports. Dahlke told officers he was traveling east about 40 mph when the child stepped into his path. The accident occurred about 11 a. m.

Keith Pepin was injured about 11:30 a. m. in the 200 block of South Sixth street when he ran

Loan Applications For GI's Jammed

LANSING — (P) — Veterans organizations promised Governor Williams yesterday to help crack a log-jam in GI home loans.

Veterans' officials told the governor that the Federal Veterans' Administration (VA) takes four to five months to approve applications for GI home loans and that a backlog of 4,600 applications were on file June 5.

Guy Palmer, Michigan VA administrator, reported the hiring of 36 additional workers and payment of overtime, approved by the national office, in the emergency had reduced the backlog to 3,600 applications in 30 days, but that lack of funds prevented a continuation of the speedup.

Robert Alguire, Brampton, Dies

Heart Attack Fatal To Retired Foreman

Robert A. Alguire, 75, of Brampton, died at 2:30 a. m., today in St. Francis hospital. He had been a patient for the past five days following a heart attack at his home.

Robert Alguire was born in North Star, Canada, Oct. 17, 1875, and was reared in Peshtigo, Wis., where his family established residence when he was a young child. He was married in 1895 to Frances Culbert at Peshtigo. The couple moved to Masonville in 1898 and have been residents of the county since.

The Brampton man worked five years as foreman for the Noggles and Armstrong mill in Masonville and for several years was foreman at the Madden and Shible Shingle and Lumber company mill in Rapid River. He also worked as foreman for the Stack Lumber company at Masonville, for the Northwestern Coopers and Lumber company and the Northwestern Plywood and Veneer company in Gladstone. Since 1936, he has made his home in Brampton.

He leaves his wife, one son, Addison D. Alguire of Berkeley, Mich., a former Gladstone resident, and three grandchildren.

The body was removed to Kelley Funeral home in Gladstone, where friends may call after 2 p. m., Friday. Funeral services will be held at 2 p. m., Saturday from the funeral home with the Rev. Glenn Kjellberg officiating. Burial will be made in Fernwood cemetery.

Three Bridge Experts Hired

Mackinac Straits Authority Meets

MACKINAC ISLAND, Mich.—Three of the nation's most eminent bridge engineers were engaged here Wednesday by the Mackinac Straits Bridge Authority to determine whether it would be feasible to span the waters between St. Ignace and Mackinaw City.

The board of engineers, which will begin making its studies shortly, is composed of the following leaders in the engineering professions: Othmar H. Ammann, David B. Steinman, New York City; and Glenn B. Woodruff, San Francisco, Calif.

Objective Study Asked

All members of the Mackinac Straits Bridge Authority, except Charles Fisher of Detroit and William Cochran of Iron Mountain, were able to attend the hurriedly-called meeting with the three engineers. The group patrolled the Straits of Mackinac waters for several hours yesterday to make a cursory inspection of the area.

Today, the engineers went to Lansing to attend a press conference.

Prentiss M. Brown of St. Ignace and Detroit, former U. S. senator, said the three engineers were engaged with instructions to make an objective study of the straits transportation problem from the engineering and financial standpoint. It was indicated the engineers' findings would be accepted as final, whether they favor or oppose construction of a bridge across the straits.

Survey cost \$75,000. The study will cost about \$75,000.

Born in Switzerland, Ammann attended Swiss Federal Polytechnic Institute in Zurich, New York and Yale universities. He has been engaged in the investigation, design and building of some of the largest bridges in the United States and Europe.

Ammann was prominently identified with the engineering and construction of the Hell Gate bridge in New York from 1912 to 1918. As chief engineer of the Port of New York Authority, he supervised the building of the George Washington bridge and Lincoln tunnel across the Hudson river. He also was chief engineer of the Triborough Bridge Authority. From 1929 to 1936, he was a member of the board of engineers

in charge of the Golden Gate bridge at San Francisco.

Steinman received engineering degrees at City College of New York and Columbia university. After a career of teaching at the University of Idaho and City College of New York, he entered private engineering practice in 1920.

He was associated with the designing and construction of many notable bridges, including: The suspension bridge at Florianopolis, Brazil, the largest in South America; Carquinez Straits bridge in California, the largest cantilever bridge in the United States; Grand Mere bridge, Quebec; St. John's bridge, Portland, Ore.; Sydney Harbor bridge, Australia; Cologne-Mulheim bridge over the Rhine, Germany; Mt. Hope bridge, Rhode Island, longest span in New England; Sky-Ride and Observation Towers, Century of Progress Exposition, Chicago; Thousand Islands bridge, over St. Lawrence river; and reconstruction of Brooklyn bridge, 1948-50.

Woodruff was the engineer of design for the San Francisco-Oakland Bay bridge.

Five-Foot Monster Frightens Charlotte

CHARLOTTE, Mich. — (P) — A wary Charlotte was abuzz today about a hairy, five-foot tall monster seen five miles to the west alongside M-79 yesterday.

Five persons reported to Sheriff Everett Peck they saw it.

Two deputies—certain it was safer in the air than in the woods—flew over the area in an attempt to flush the monster or spot him. They didn't see anything.

But Jack Haley, 60, state highway department patrolman, and Mr. and Mrs. Charles Rogers, of Kalamo township, told the sheriff there was no doubt they saw the creature standing beside M-79. Two others, whose names the sheriff didn't get, also reported sighting the monster.

Haley reported the monster had long dark hair over its body and head and that it ran on all-fours.

Petitions Ask Ban On A-Bomb

NEW YORK—(P)—The Korean war has spurred the campaign to get signatures on a Moscow-backed petition to outlaw the atomic bomb, the Peace Information Center reported last night.

The center claimed it had obtained 1,000,000 American signatures to the petition, which is patterned after the "Stockholm petition" being distributed by the World Peace Appeal.

Of these, the center said, 400,000 have been obtained since fighting broke out in Korea.

The largest number of signers, 400,000 out of the 1,000,000 total, are New Yorkers.

Other points where large numbers have signed, according to the peace center's announcement, include Chicago, with 155,000 signers; California, 80,000; Boston, 45,000; Ohio, 50,000; Seattle, 26,000; Philadelphia, 20,000 and Michigan, 17,000.

Prominent signers of the petition listed by the center range from Emily Greene Balch, 1946 nobel peace prize winner, to Negro bandleader Duke Ellington. Many college professors and ministers are listed.

The center said many who have

signed since the Korean war started were doubtful about the war and Russia's role, but "there is even greater anxiety and desire to prevent the war from spreading."

Miss Balch, who is honorary chairman of the Women's International League for Peace and Freedom, was quoted as saying

that the world peace appeal statement "is especially important at this time because it cuts across all ideological and political lines and merits the support of all those who want peace, regardless of any other differences among them."

The Peace Information Center, which supplies copies of the petition to organizations and individuals throughout the country, is headed by Dr. W. E. B. Dubois, Negro anthropologist and head of the Council on African Affairs. The latter organization has been listed as subversive by the attorney general.

Garden Road Problem Stems From An Unique Situation

THE controversy that has developed regarding the maintenance of a mile of county road 483 in the Village of Garden stems from an unique situation.

The road in question is the main street of the village. The county road commission could abandon the road to the village for maintenance and upkeep, as was done with similar roads within the cities of Escanaba and Gladstone. The road was kept within the county's road mileage, however, to provide uniform maintenance over the entire stretch of the road from Garden Corners to Fairport.

The county road 483 is 18 feet wide except in the village of Garden where it widens in some places to as much as 50 feet. The road commission is responsible, however, only for the 18 foot center strip and maintenance of the remainder is the direct obligation of the village itself.

Confronted with a severe financial problem, the road commission has been improving township roads only in cases where the townships appropriate supplementary funds. In view of this circumstance, the commission has informed the Village of Garden that it will improve the 18 foot center strip only if the village provides funds to supplement the money that the county is willing to put into the project. Improvement of the remainder of the road within the village, that is, the area beyond the 18 foot center strip, will be done by the road commission only if the village provides all of the funds for that portion of the project.

Justification for this policy by the road commission is apparent when it is considered in the light of the road problem throughout the county. The road commission is faced with a severe financial problem, the road commission has been improving township roads only in cases where the townships appropriate supplementary funds. In view of this circumstance, the commission has informed the Village of Garden that it will improve the 18 foot center strip only if the village provides funds to supplement the money that the county is willing to put into the project. Improvement of the remainder of the road within the village, that is, the area beyond the 18 foot center strip, will be done by the road commission only if the village provides all of the funds for that portion of the project.

Free Europe's Radio Battles Lie With Truth

MANY wise statesmen have been appealing insistently to the free world to exert greater effort to the grim "struggle for men's minds."

They have pounded repeatedly on the idea that it isn't enough to combat Russian Communism with economic and military measures; that freedom must be shown to be the great cause it really is, a way of life eminently superior to the slavery imposed by Moscow.

The first imaginative stride in this direction has now been taken. From a secret radio transmitter in Europe, a new series of programs is being beamed to the countries behind the Iron Curtain—Poland, Czechoslovakia, Romania, Hungary and Bulgaria.

Radio Free Europe, as the new transmitter is called, is the product of the National Committee for a Free Europe, which was organized about a year ago by outstanding American citizens.

But this is no duplication of our official government Voice of America. Much of the broadcasting will be done by leading democratic exiles from the Iron Curtain nations themselves. Among them are a former premier of Poland, a former Czech ambassador to France, a one-time Romanian foreign minister.

In the words of DeWitt Poole, former State Department Russian expert who heads the committee, these distinguished men will "speak to their imprisoned countrymen in their native language, in the familiar tone of a family reunited."

The new group, being privately financed and administered, has the further advantage of being free of the diplomatic restrictions which hamper the broadcasts of the Voice. Radio Free Europe can speak with tremendous vigor and frankness.

Never was it clearer that the West must tell its story with force and power. Russia and her pawns are fouling the air with poisonous lies which seek to heap upon the United States the blame for the Soviet-inspired Korean war.

The Russians are working on the old theory of the Big Lie which Hitler developed: repeat a whopper often enough and people will begin to believe it.

Apparently the only antidote for the Big Lie is the Big Truth. With more energy and will than the Soviets can muster, we must broadcast to Europe and around the globe the facts about Korea. We must expose the shoddy, self-condemning fabrications of Andrei Gromyko and his propaganda millions in satellite countries.

We must make plain to decent people everywhere that the language of Communism is the language of falsehood, that Russia's words can never be believed because words to the Soviet Union are simply weapons in the psychological theater of war.

These are long, relaxing days with the sun about 15 hours above the horizon; masses of cumulus clouds wander unhurriedly along overhead trails. From day to day a farmer can watch his corn, potatoes and beans stretch upward; pale-green marbles of apples swell larger each day on the boughs. Cattle lie placidly beneath pasture trees at high noon. Toward day's end boys gather at swimming holes in meadow creeks, their totally exhausted strength in the hay field a few minutes before suddenly and miraculously restored when they are freed for an interlude of fun before getting the cows. Dusk thickens slowly in July while shadows march down from the heights and partition off meadows and fields, upland pastures and ridges. One by one pale-gold stars pop through the overhead curtain; mysterious night noises begin scratching against the dark curtain. This is the good old summer time. There is something in most men that responds to Nature when heat and sun, clouds and rain push crops toward fruition.

—By Haydn Pearson.

July is a pivotal month of the annual cycle and a great favorite with most citizens. The nostril-tickling fragrance of wilting grass fills the air and the baritone song of purring tractors sounds from fields and meadows. Straight lines of green plants above brown soil already foretell the harvest; woodlands and hedges are filled with fluttering birds; young toads come from sloughs and ponds and meadow grasshoppers sing in the humid darkness of night.

The Indians designated this the time of the Blueberry Moon. The squaws picked quantities of the sweet-flavored berries and dried them against the time of snow and cold. July is an interesting and distinctive chapter in Nature's book. The life processes of many wild plants have already been completed; they have grown their stems, produced flowers and pollen; seeds have been formed by the magic fusing of chromosomes in pollen grains and ova. Now myriad seeds are hidden on Earth's breast waiting for time to pass until they receive the call to life after an autumn and winter have passed.

These are long, relaxing days with the sun about 15 hours above the horizon; masses of cumulus clouds wander unhurriedly along overhead trails. From day to day a farmer can watch his corn, potatoes and beans stretch upward; pale-green marbles of apples swell larger each day on the boughs. —By Haydn Pearson.

When the boys who keep statistics tell you what it costs to live, and the price for food and shelter that a person has to give, then you wonder why they sometimes say that living costs are less, for the balance in your bank account still leaves you in distress. And it seems when certain costs go down, some other prices soar, and you're left with empty pockets which you always had before.

You can read the market specialists and note their words of cheer, when they say the upward trend of costs will likely disappear. And you see a little later their predictions have come true, and that prices then are going down to save some dough for you. How they figure their percentages, they never seem to say, but they tell you their statistics show that less you'll have to pay.

So you start out on a shopping tour but soon your money's spent, and no matter how you add it up, you haven't saved a cent. From the clothes upon your burdened back to coffee in your cup—if the price of one is down, the cost of other stuff is up. And you wonder if economists are also out of sorts, when they go to check their pocketbooks against their own reports.

Merry-Go-Round

By DREW PEARSON

WASHINGTON—Two Democratic Senators in two widely separated areas appear to have widely divergent views on big campaign contributions:

No. 1 is serious-minded Senator Estes Kefauver of Tennessee who today opens up a big probe of Florida gambling, including the third of a million dollars pumped into the political kitty of Fuller Warren to elect him governor of Florida. Warren is a Democrat and so is Kefauver, but the senator isn't letting that hamper the investigation.

No. 2 is likable, silver-crested Senator Guy Gillette of Iowa, chairman of a Senate committee supposed to investigate big campaign contributions. When the easy-going Mr. Gillette is asked too many questions about his probe, he puts on his hat and walks away.

So far this year more big money has been pumped into senatorial primaries than almost any other year in history, both by Democrats and Republicans. But Guy Gillette just doesn't seem anxious to embarrass either party.

—WHO ELECTS GOVERNORS—

Down in Miami, Senator Kefauver's investigation, beginning today, goes to the root of how the gambling rackets have become political rackets. I haven't talked to Kefauver's investigators, but I have made a study of Florida gambling and here is the general picture he will find:

Gambling in the lush winter sportland around Florida has been divided among three gangs:

A. The old Capone mob under William H. Johnston of Chicago and Jacksonville controls the dog races of the entire state.

B. The S. and G. syndicate, a group of local businessmen, control the bookmaking in Miami and Miami Beach.

C. The New York mob, under Meyer Lansky, an associate of Frankie Costello, operates in Broward county, north of Miami Beach.

In order to preserve the millions in profits raked in from these areas, the gangs subsidize the sheriffs of their local counties and even the governor of Florida himself. In fact, when the Chicago gang told the S. and G. syndicate to move over and let them in on part of the Miami bookmaking, the S. and G. syndicate immediately appealed to the man it had helped elect to office, Dade county Sheriff Jimmy Sullivan.

—DOG-RACER ELECTED GOVERNOR—

Whereupon, the Chicago gang also fell back on the man it had helped elect to office, Gov. Fuller Warren. Dog-racer William Johnston, it developed, had contributed the amazing amount of \$154,000 to Warren's primary campaign, despite the fact that it was against the law at that time to contribute more than \$5,000 per person. After Warren was elected to office, of course, he got the law changed.

Another \$154,000 was given and loaned to Warren by Louis E. Wolfson of Jacksonville, also in violation of the \$5,000 limit.

Governor Warren has now found himself betwixt and between in the war of gamblers, and the Kefauver crime committee wants to find out what the gamblers get in return for their stupendous campaign gifts.

—PENNSYLVANIANS NO PIKERS—

Meanwhile, in another part of the U. S., other sizable campaign gifts have been revealed in the good old Republican state of Pennsylvania. This time gamblers were not the contributors, but big manufacturers.

Joe Grundy, the famed GOP high-tariff advocate, contributed \$94,000 to the Jay Cooke-John Kunkel campaign in Pennsylvania to defeat Governor Jim Duff, also Republican. Mason Owlett put up \$52,000; loaned another \$45,000, while his wife gave \$3,000. W. T. Wright also loaned \$156,135 to the Kunkel-Cooke committee.

But in Washington, Senator Gillette did not seem much interested in these big contributions. He sent Fielding Wright, Jr., son of the Mississippi Dixiecrat governor, to Pennsylvania to probe the big dough shelled out by the manufacturers, but it was learned that Wright chiefly paid a social call on the Pennsylvania secretary of state.

—THE UNEMPLOYED ARE—

On Friday, sign-painters were busily inscribing a new title. The pin-points now show "Areas of Relative Labor Supply."

This turnabout in the employment picture was well under way before the U. S. got involved in Korea. It will be intensified by Far Eastern fighting and by the need for more skilled workers in arms plants and munitions factories as U. S. defense spending increases.

A step-up in the size of the armed forces either through voluntary enlistments or use of the draft—authorized Friday by President Truman—would aggravate the manpower pinch.

It's estimated an additional 250,000 officers and men might be needed to carry out present Korea strategy, though under law as many as 550,000 men could be called up. The Truman order allows draft deferment for "key men" in essential defense industries.

The prospect of a record demand for workers in the months ahead makes government experts nervous. "If we add new demand for workers to the present peak employment," one authority points out, "there's bound to be some scrambling in the job market."

Sees Record Topped This Month

Government experts estimate that more Americans are at work today than ever before in history. They won't have exact figures to prove this until the end of this month. A Census Bureau survey for the first week of June showed employment at 61,500,000—only a shade below the July, 1948, peak of 61,600,000.

Says B.E.S. Chief Robert C. Goowin, "There seems little doubt that employment in July will top the 1948 record."

Officials can't accurately predict just how tough it's going to be for employers to get just the sort of workers they need from now on. For one thing, it will depend pretty much on development overseas, in Korea, and in the problem is going to vary from industry to industry and from one part of the country to another.

Worker Shortage Threatened In U. S.; Labor Supply Pinch Noted

By PHILIP GEYELIN
Staff Correspondent of
The Wall Street Journal

WASHINGTON—Government labor men who were trying a few months ago to find jobs for idle workers are now worrying about finding workers to fill jobs.

For the first time in two years, Labor Department reports show manpower pinches in some areas. True, these shortages are spotty, and involve only certain skilled craftsmen, like building tradesmen or metal workers. But there are signs that employers in other industries soon may be faced with similar labor scarcities.

"Unemployment is no longer much of a problem, nation-wide," says Evan Clague, Commissioner of Labor Statistics in the Labor Department. He thinks "manpower shortages look like a bigger worry now."

To get an idea of the subtle shift in employment sentiment over at the Labor Department, just glance into Secretary Tobin's "economic situation room."

In this chart room, officials keep track of trends in employment and joblessness across the country. At one end of the room is a huge map of the United States with unemployment trouble spots pin-pointed. Until late last week, the map was labeled "Where The Unemployed Are."

On Friday, sign-painters were busily inscribing a new title. The pin-points now show "Areas of Relative Labor Supply."

This turnabout in the employment picture was well under way before the U. S. got involved in Korea. It will be intensified by Far Eastern fighting and by the need for more skilled workers in arms plants and munitions factories as U. S. defense spending increases.

A step-up in the size of the armed forces either through voluntary enlistments or use of the draft—authorized Friday by President Truman—would aggravate the manpower pinch.

It's estimated an additional 250,000 officers and men might be needed to carry out present Korea strategy, though under law as many as 550,000 men could be called up. The Truman order allows draft deferment for "key men" in essential defense industries.

The prospect of a record demand for workers in the months ahead makes government experts nervous. "If we add new demand for workers to the present peak employment," one authority points out, "there's bound to be some scrambling in the job market."

Officials can't accurately predict just how tough it's going to be for employers to get just the sort of workers they need from now on. For one thing, it will depend pretty much on development overseas, in Korea, and in the problem is going to vary from industry to industry and from one part of the country to another.

But manpower experts stress this important difference between

the present situation and the start of the last big national defense program in 1939-1940: In those days, unemployment totaled around eight million and there was a big pool of idle workers to be absorbed. Today, there's a good deal less slack in the job picture. Unemployment has dropped from its post-war peak of 4,700,000 last February to slightly more than three million now.

No Business Slump Seen

The business boom that brought about this job pick-up shows few signs of slackening. A business slump, of course, would ease the threat of a manpower pinch. But federal experts aren't looking for much let-up in business activity until early 1951 at the earliest.

On the contrary, the latest survey by the Labor Department indicates employment prospects for the nation's job-seekers are the brightest since 1948, when the government's employment service last was looking hard for workers to fill job openings.

This report, made public today, indicates "spectacular improvement" in the job picture between mid-March and mid-May at 99 industrial centers across the nation. An informal survey of employer opinion in these areas shows "exceedingly favorable" prospects for the months just ahead, the department states.

But the report notes: "For the first time in many months, occupational shortages besides the usual hard-to-fill undesirable and

low-paying jobs were beginning to appear in a considerable number of areas. Others are expected weeks were disappearing, "except for apparel, textiles, shoes, and coal mining."

The department's survey isn't to develop shortages before too long.

Other signs of a manpower pinch in the offing: "Out-of-area" recruitment drives were in progress, particularly in the North Central states; shorter work-detailed enough to tell just what workers are scarce and in what localities. But it does classify the nation's major "labor market" according to the supply of workers and a glance at the department's listings gives an idea where the manpower pinch is already bad or likely to get bad soon.

Nine areas are classified as having a "tight or balanced" labor supply in May. This means less than 3% of the available workers are jobless. The nine areas are: Rockford, Ill.; Evansville, Ind.; South Bend, Ind.; Des Moines, Ia.; Flint and Pontiac, Mich.; Jacksonville, Fla.; Dallas, and Denver.

Any big, new demand for labor in one of these areas would be sure to create a manpower pinch. Labor Department experts believe. The startling improvement in the employment situation in recent months is shown by the fact that there were only four areas in the U. S. in March, 1950, with a "tight or balanced" rating, and only two in May, 1949.

Defaced Picnic Tables

Dear Editor:

The State goes to a big expense in providing tables and benches, likewise charcoal burners, and even wood for fuel, for the convenience of the travelling public as well as for local residents and the tax payers foot the bill. At Days River, Pioneer Park and dozens of other places where these conveniences are provided by the State, all of which I have observed and enjoyed, some brainless and thoughtless people have defaced and mutilated these beautiful tables and benches, and burners, by carving their initials and otherwise defacing.

The State should post a reward of \$1000 for their capture and conviction and the taxpayers would be ahead.

We are assessed billions of dollars for the alleviation of a lot of Java Ape foreigners who don't know enough to come in out of the rain, and let our own people run rampant with cigarettes, booze and nudity without the slightest effort of curtailment.

Good Evening...

By ROBERT C. RUARK

NEW YORK—A man we know, who hires a great many young people for a great big business, was muttering in his beard a bit the other day. He said that the

RUARK

people who came to him looking for jobs didn't ask so much about ceiling on opportunity or the chances of marrying the boss's daughter. They straight off, about the provisions for retirement—the pension plan, the knock-off age, and such like.

Along the same lines, I picked up one of those newspaper questionnaires, in which the question for the day was: "Do you think you could handle your boss' job?" Six people, four women and two men, all answered, "no."

I wouldn't know whether we've spotted a trend here, but it looks a mite unhealthy. This is not the way it happened in Horatio Alger—or even in my comparatively recent day. Possibly this is a revulsion against the uncertain times, in which security is treasured above rubies, but, if so, it is a delusion. Because today, of all days, there is mighty little security. Planning for the future has been wrested from individual hands and is now a matter of blind luck.

—SOME THRIFT COMMENDABLE—

A certain amount of thrift is a commendable commodity, and you cannot knock the wise ant who peers reasonably at the morrow. The jitterbugging grasshopper is still a jerk. But the young adult who writes off 30 or 40 years of living, with an eye pinned to pension, is equally imprudent, if only because he is squandering. A lifetime of excitement for a nebulous security, when his reflexes have dulled and his glands laxed up considerably.

Just recently some unidentified sniper shot casually into a baseball audience of over 40,000 people and killed a stranger. The bathtub and the auto car and the bolt of lightning still beckon ever to the grave. We have complicated ordinary accidents with wars and airplanes and atom bombs. In my short life I have seen the value of the dollar split in two. Taxes crush us, so we cannot put aside a buck.

They tell us in one book that any day a comet may slip its leash and run spang into the earth. Earthquakes still occur. Volcanoes still erupt. Strangers shoot strangers for fun. Established business suddenly become obsolete. Nobody alive is competent to plot a future course, economic or otherwise, for anybody else.

This isn't defeatism. But it is a personal reflection on the fact that any young person who fixes his sights exclusively on the horizon of old age cheats himself as thoroughly as the religious fanatic who regards earthly living as nothing more than a way-stop on the road to heaven or hell.

—WOULD TAKE RISKS—

If there was one thing we had in these parts, it was lusty optimism and supreme self-confidence. We had a creed that one man was a good as another, that any boy could before president, and that every day was a challenge. The boss represented a momentary obstacle to success. You fixed your eye on his job and reckoned the hours until you could occupy his chair. You gambled on the future.

There is very little zest to living without the risk-quotient I believe the Eisenhower was the man who said the only perfect security was a life sentence to jail. A young person, just starting out in the rattle with economics, ought to have a head full of wrong ideas, but a preoccupation with old-age security doesn't seem to fit.

Maybe I am still infected by the Fourth of July, but it seems to me we built the nation on slightly hare-brained ideals and infatuation with the present, with the idea that the future could look after itself. If we are become suddenly wary and hesitant and full of forboding we are betting with scared money and any horseplayer will tell you that scared money was not.

It happens I am not in a position to hire anyone, but, if I were, I can tell you whom I wouldn't hire. I wouldn't hire the young man who asked me about pension plans or the fellow who admitted that he couldn't fill his boss's shoes. Gimme the young guy who would look speculatively at my desk and mutter to himself: "Two years—maybe three—and I'll have that bum out of there."

Into The Past

10 YEARS AGO

Washington—Irving Berlin, writer of the song "God Bless America," today granted the Republicans the right to use the song in the Wendell Wilkie campaign.

Nakara, Turkey—Turkey is in no danger. Premier Refik Saydam told the national assembly today, but will "rise as one man" against any menace which may in the future appear.

Escanaba—Robert Deo was elected president of the Delta County Bar association at a banquet and meeting held Wednesday evening at the Ludington hotel.

Harrisville—Listed belatedly among the casualties of the Fourth of July weekend is a 16 inch bass of one of the state fish hatchery ponds here. The bass struck just as a lighted firecracker tossed by a 10 year old boy hit the water. Most of its head was blown off.

29 YEARS AGO

Manistique—Fire Chief Charles E. Underwood returned to the city yesterday after having attended the State Firemen's convention and short course college at South Haven, Mich. Approximately 450 fire fighters from the entire state were present at the annual gathering, Mr. Underwood stated.

Cheaper Living?

By Gordon Martin

When the boys who keep statistics tell you what it costs to live, and the price for food and shelter that a person has to give, then you wonder why they sometimes say that living costs are less, for the balance in your bank account still leaves you in distress. And it seems when certain costs go down, some other prices soar, and you're left with empty pockets which you always had before.

You can read the market specialists and note their words of cheer, when they say the upward trend of costs will likely disappear. And you see a little later their predictions have come true, and that prices then are going down to save some dough for you. How they figure their percentages, they never seem to say, but they tell you their statistics show that less you'll have to pay.

So you start out on a shopping tour but soon your money's spent, and no matter how you add it up, you haven't saved a cent. From the clothes upon your burdened back to coffee in your cup—if the price of one is down, the cost of other stuff is up. And you wonder if economists are also out of sorts, when they go to check their pocketbooks against their own reports.

Weighted Body Is Removed From River

WINDSOR, Ont.—(AP)—A woman's body, bound with wire and weighted with pieces of steel, was taken from the Detroit river yesterday.

Police checked missing persons files in an effort to establish her identity.

Coroner C. V. Mills said the woman, a brunette about 30, apparently had died after an illegal operation.

Fan Happy He Lost

MANCHESTER, Conn.—(AP)—George M. Pazianos is flying to Greece on July 24, and upon landing he plans to present a supply of food and clothing to the family of the first man he meets after leaving the airport. That's because the National league won the All-Star baseball game in Chicago Tuesday.

Pazianos is an ardent American league rooter. James Morianos roots just as ardently for the National league.

So before the All-Star game the two restaurateurs fixed up a bet—the loser personally to present some unknown family in their homeland with a supply of food and clothing.

Pazianos seemed to be glad he lost. He's been away from Greece 35 years, five years more than Morianos.

Flint Widens Margin Over Grand Rapids

(By The Associated Press) If the Detroit Tigers think they are hot stuff in the American league, let them consider what their farm club at Flint is doing in the Central league.

The Tigers are fighting to hold on to a three-game lead. The Flint club, however, boosted its lead in the class A circuit Wednesday night to 11 games. Flint posted its 50th victory of the season by defeating runnerup Grand Rapids 3-2. Flint has only 24 losses.

In a doubleheader at Saginaw, the Bears won the first game from the Dayton Indians 8-7 while Dayton took the second 3-1. Charleston and Muskegon were idle.

Duck Season Oct. 13

The Upper Peninsula waterfowl season will open Oct. 13 at noon. The waterfowl opening dates are subject to approval by the federal fish and wildlife service. Closing dates, bag limits and hunting hours other than on opening days will be set later by federal regulation.

The deer seasons were left as last year except in the northwestern orchard area where conflicting interest of orchardists suffering deer damage and organized sportsmen brought a modification of last year's antlerless deer season.

In place of the special season, the commission will allow those holding special permits to shoot one deer of either sex Dec. 1 to 5. The regular one-buck season will be held in the area as in the rest of the state Nov. 15 to 30.

Ten-day antlerless deer seasons Dec. 1 to 10 were approved for Algonquin and Newagawac counties. The archery deer season was set for Oct. 1 to Nov. 5.

Regulations covering the hunting of other species were largely left unchanged.

Adm. Arthur W. Radford, commander in chief for the navy in the Pacific, was flying from Pearl Harbor to Tokyo to confer with MacArthur.

MacArthur's communique said the 15th and Fifth North Korean divisions have started a drive to the southwest "in a wide envelopment heading for Hanchang," 45 miles northeast of Taejon and on a line that would take them to the Pusan-Taejon railroad if they were successful.

Associated Press correspondent Tom Lambert reported from the front that the drive began when the Reds bridged the Han river at Tanyang, about 20 miles east of fallen Chungju, and sent one division with artillery rolling south.

Another Retreat The American-trained South Korean Eighth division was driven out of Tanyang, MacArthur said, and other South Korean troops "were pushed back to a position about ten miles southeast of Chungju."

Lambert placed the active Red front on a 50-mile arc from Chochiwon, 20 miles north of Taejon,

northward and eastward to Tanyang.

He said Red pressure toward the east does not endanger Americans at the moment.

"But a rapid Red drive south from the Chochiwon-Tanyang arc could outflank them again," Lambert wrote. "Military maps show there are fair roads south from Chungju and Tanyang. These roads probably could accommodate the Red armor which has spearheaded successfully the Communist drive southward of about 100 miles in some sectors in this two-week-old war."

Sprays that hasten the ripening of apples also in some cases cause the fruit to stay on the tree longer.

Mission Surveys Philippine Needs

MANILA.—(AP)—A tight-lipped United States military mission arrived tonight for a survey of Philippine security needs.

Maj. Gen. Graves B. Erskine, retired commander of the First Marine Division, heads the 16 man group. It includes John F. Melby, special assistant to Dean Rusk, Assistant United States Secretary of State in charge of Far Eastern affairs.

The mission will leave Friday for Indochina, Indonesia, Burma and Thailand.

NOW...Safely Lose UGLY FAT!

Up to 7 Pounds per week

EATING CONDENSED FOOD TABLETS

START LOSING FAT FIRST DAY

without starvation, harmful drugs, laxatives, exercise or massage

Yes, the Kyrin Plan, the new food tablet way to reduce, will help you lose up to 7 lbs. first 7 days—or you pay nothing. If your excess weight is caused by over-eating (and not glandular), the Kyrin Plan is designed to act 3 ways: (1) To help appease your hunger, to cut down your appetite automatically, yet you never feel hungry; (2) Includes nutritious elements to help maintain your energy while reducing; (3) Recommends in package many foods often falsely labeled in ordinary diets as "fattening." Endorsement by your physician recommended.

"I LOST 35 POUNDS IN 7 WEEKS"
—says Mrs. Kathryn Walker
3332 West Fullerton Avenue, Chicago

"Kyrin results have been absolutely astonishing. I am 27 years old, and have a 7-year-old daughter. When I started using Kyrin, I weighed 153 pounds, and felt awfully old and let-down. In 7 weeks, I lost 35 pounds. I used to feel sluggish and always tired. Now I feel so much younger and praver. My friends and my husband can't get over the change that has taken place in 7 short weeks."

REDUCE UP TO 7 POUNDS FIRST 7 DAYS... OR NO COST! MAKE THIS 7-DAY TEST: without risking a penny!

Get a package of Kyrin Tablets from your druggist. Eat these condensed food tablets for 7 days... and follow directions as explained in package. Check your weight before and after using Kyrin. If you are not 100% delighted with results... return the empty package to your druggist, and he will return your money. Make this test today! Ask your druggist or department store for the Kyrin Plan... the condensed food tablet.

Perkins Auxiliary Installs Officers

PERKINS—Officers of the American Legion Auxiliary of Perkins were installed at a meeting held Tuesday evening, July 11, at the home of Mrs. Axel LeChance, retiring president. The new slate is: Mrs. Donald Depuydt, president; Mrs. Freddie Krouth, vice president; Mrs. Carl Branstrom, secretary; Mrs. Alex LaChance, treasurer; Mrs. Gerald Depuydt, chaplain and Mrs. Adeline Gerou, sergeant at arms.

Plans were made for an Auxiliary sponsored dance to be held at the Community center July 22. The next meeting will be held the second Tuesday in September.

Lunch was served at the close of the meeting by the hostess committee, Mrs. Leo Miljour, Mrs. Mae Krouth and Mrs. G. L. Depuydt.

Personals

Mr. and Mrs. Nicholas Kostas of Lansing are visiting relatives here. Mrs. Kostas is the former Violet Pepin.

Mr. and Mrs. Leonard LaChance have returned to Detroit following a visit with Mr. and Mrs. Francis LaChance and other relatives.

Mrs. Paul Miller of Chicago and her brother Rayfield Carlson who is with the U. S. Forestry Service in Minnesota are visiting their parents, Mr. and Mrs. Axel Carlson.

Miss Grace Gerou returned to Fond du Lac, Wis., after attending the wedding of her brother, William, Saturday.

Recent visitors at the home of Mr. and Mrs. Phillip Williams were Mr. and Mrs. Louis DeRoux of Van Dyke, Mr. and Mrs. Otis Williams of Marquette, Mr. and Mrs. Harold Hilling and Mrs. Frannie Hilling of Rock, and Mr. and Mrs. Robert Callman and Mr.

RECIPE

Swift's "Make Your Own" Mix
Yield: About 13 cups.
2 cups Swift's 9 cups sifted all-purpose flour 1 tablespoon salt
1/4 cup (4 tablespoons) double acting baking powder (like Calumet, K.C., and Clabber Girl)
Combine sifted flour, baking powder, and salt. Stir well. Sift into a large bowl. Add Swift's. Use finger tips or pastry blends to distribute Swift's throughout dry ingredients until the mix resembles coarse cornmeal. The "Make Your Own Mix" is now ready to use or store in a closed canister on your pantry shelf.

Deer Experts Due Next Week

Game Men To Visit Escanaba Area

Four Michigan conservation department game experts are expected in Escanaba early next week to start a survey of deer in the Upper Peninsula, Howard Eldred, game manager of the local district said today.

They are Dr. S. C. Whitlock, H. H. Bartlett, Benjamin Jenkins and L. A. Davenport, all of the Lansing office.

Bartlett and Dr. Whitlock are scheduled to speak to the Escanaba Lions club Monday night.

The four will spend some time at the Casino game refuge near Newberry and visit all the game division districts.

Eldred said today he didn't believe there was "anything to worry about on the deer situation in the Upper Peninsula."

He asserted there were reports of a good crop of fawns and overpopulation of deer in some farming areas but nothing of an extreme nature.

Eldred said he had received reports of several deer twins and

Grand Marais

DeRubbo-Dowell
Miss Frances DeRubbo, daughter of Mr. and Mrs. Paul DeRubbo, 4375 Alta Road, Detroit, became the bride of Jack Dowell, son of Mr. and Mrs. Louis A. Dowell of Grand Marais, at an afternoon ceremony at 2 July 1 in the Church of God in Detroit. Rev. Gilligan officiated. White gladstoles and palms decorated the church for the service.
The bridal party included Betty Gallagher of Chicago as maid of honor, Mrs. Robert Miller, sister of the bridegroom, who was bridesmaid, Edwin DeRubbo, brother of the bride, best man, Robert Miller, usher, and Carol Ann, niece of the bride, who was flower girl.
The bride wore a formal length gown of sheer white organza and an illusion fingertip veil. She carried an old fashioned bridal bouquet of white. The maid of honor wore sheer pink organza styled like the bride's gown and carried a similar bouquet. The

bridesmaid's dress was a duplicate in pastel blue and she carried a matching bouquet.
Both mothers wore navy and white sheers with corsages of pink carnations.
Solos of the service were "Because" and "I Love You truly."
A reception for 250 guests was held in the church parlors. Decorations included the traditional four-tiered wedding cake topped with a bride and bridegroom, individual heart shaped cakes with pink streamers inscribed with the names of the bridal couple and pink and white flowers.
The newlyweds after a honeymoon at Mackinac Island and Grand Marais will live in Detroit.

Customer's Corner

When you buy a can of food, you can't see the contents.

That is why the labels on practically all of A&P's own quality brands of fruits, vegetables and juices tell you exactly what the can contains.

We tell you the U. S. Government grade.

We explain exactly what that grade means.

We list the uses for which the grade is best suited.

In other words, we not only want you to get quality food at low prices at your A&P, but we want you to know in advance what you're getting for your money.

Read the labels carefully on your A&P canned foods. If the contents should ever fail to live up to our claims or your expectations, please let us know. Write:

Sunday School Picnic

ISABELLA—Mrs. Harvey Sundin, Bethany Lutheran Sunday school superintendent, announces that the annual Sunday school picnic will be held Sunday July 16 at Swan Lake. All planning to attend must be at the church at 10 a. m. Mothers or other older members of the family are asked to accompany the small children. The picnic is for members and friends of the parish.

Honored at Picnic
A picnic honoring Mr. and Mrs. Guy Scarpello and son of Chicago who are vacationing at the cottage, "Paradise" on Little Bay de Noc was held Sunday afternoon at Swan Lake. A wiener roast and a marshmallow roast were features of the program. Attending were Mr. and Mrs. Bruce Smith and son Terry of Grayling, Mrs. Arvid Sundin, Mrs. John Moberg of Detroit, Mr. and Mrs. Al Asplund of Felch, Mrs. Judith Strom of Chicago, Mrs. Harvey Sundin and son Burton, Jackie and Jill Dupuis of Lake Linden and Mrs. Pete Forslund and daughter Nancy.

Persons
Mr. and Mrs. Ronald Johnson and family of Alpena, Mich., are spending their vacation at the home of Mr. Johnson's sisters, Mrs. Lloyd Papineau and Mrs. Francis Nedeau.

Mrs. Fred Galano has returned to Escanaba following a visit with Mrs. Sara LeGault at the Henry LeGault home.

Mr. and Mrs. Howard Johnson and family have returned to Engadine after spending several days with Mr. and Mrs. William Vienne.

Mr. and Mrs. Robert Smith and sons Dwight and Jim of Allegan, Mich., are vacationing at the home of Mr. and Mrs. Morris LaVigne. Mrs. Smith and Mrs. LaVigne are sisters.

Accident Toll High In State

1,000 Killed Or Hurt Weekly On Highways

Nearly one thousand persons are being killed or injured on Michigan highways each week and speed is one of the principal causes, Sgt. Edward Goldsworthy, of the Gladstone Post of Michigan State Police, asserted today in urging motorists to cooperate in the present campaign to reduce the frequency of this most serious traffic offense.

"The slogan of the campaign, 'Speeders Lose,' has been well selected, for the records prove that speeders do lose," Sgt. Goldsworthy said. "Even when speed is not the direct cause of an accident it often contributes to its seriousness and means the difference between life and death."

"Not only was speed a factor in 500 Michigan traffic deaths last year, but it also was responsible for the serious injury of many of the 41,000 persons who were hurt in the 143,000 accidents that occurred in the state."

"Motorists should take heed of the fact that accidents are on the increase in Michigan. So are injuries and deaths. Many pleasure drives and vacation trips are ending in tragedy. The answer is that every driver, for his own sake as well as for the welfare of others, should drive carefully and alertly, and remember particularly that speeders lose."

Sgt. Goldsworthy also explained that where there is no specified speed limit, which is the case on most of the highway system, the state law provides that it is a violation to drive faster than conditions such as traffic, weather and time of day permit.

Personal
To Women With Nagging Backache

As we get older, stress and strain, over-exertion, excessive smoking or exposure to cold sometimes slows down kidney function. This may lead many folks to complain of nagging backache, loss of pep and energy, headaches and dizziness. Getting up nights or frequent passages may result from minor bladder irritations due to cold, dampness or dietary indiscretions.

If your discomforts are due to these causes, don't wait, try Doan's Pills, a mild diuretic. Used successfully by millions for over 30 years. While these symptoms may often otherwise occur, it's amazing how many times Doan's give happy relief—help the 15 miles of kidney tubes and filter flush out waste. Get Doan's Pills today!

Tennis Tourney Being Arranged

Entries For Event Being Accepted

Plans for a mid-season tennis tournament to be held next week are announced by Charles Green Jr., tennis instructor. Approximately 25 youths are now entered and others may do so by contacting Instructor Green.

When all entries have been received the schedule of play for various age groups will be formulated and announced.

The tournament is being held primarily to acquaint players with rules and regulations of tournament play and to be prepared for invitations to inter-city tournaments.

Racquet frames have been donated by City Manager H. J. Henriksen and Charles Green to the Recreation Center and are being restrung by the latter. Any similar donations of racquet frames or rackets will be greatly appreciated.

Recreation Director Elmer Peterson stated.

Lee J. Alwordens Married 25 Years

Mr. and Mrs. Lee J. Alworden, 914 Superior avenue, who will be married twenty five years on Friday July 14, will celebrate their anniversary quietly with members of their family.

With their two daughters, their sons-in-law and two grandsons, Mr. and Mrs. Orson Livermore and Danny of Rhineland, Wis., and Mr. and Mrs. Robert Peterson and Jimmy of Marquette, Mich., and their daughter's parents-in-law, Mr. and Mrs. John Peterson of Escanaba they will motor to Mackinac Island on Friday and return Saturday.

Registration tickets are being printed and will be placed in local business houses in order to facilitate the work. Registration booths also will be set up on Good Neighbor day but the advance registration will lighten the load considerably, it is believed.

It will not be necessary to be present to receive a prize. All that is necessary is that it be claimed within a "reasonable time."

Local Yachtsmen To Visit Escanaba Club

Members of the Gladstone Yacht club plan a "friendly invasion" of the Escanaba Yacht club next Tuesday evening, according to plans made this week.

All members of the local club with boats who plan to participate in the trip should be at the local club at 7 o'clock Tuesday evening to make the trip. Commodore Clyde Cole announces.

Friends Honor Mrs. Schneider On 81st Birthday

Tuesday, July 11, was Mary Schneider's eighty-first birthday. She didn't broadcast the fact and to her, it was just another very busy day, but somehow or other, the word got around and she was showered with gifts, greetings and visits from friends. One couldn't keep such important information from the scores of friends in Manistique who respect and love her. To add to her happiness was the arrival of a letter from a relative in Wittenberg, Germany.

Friends who called remarked on how her looks belied her many years. There are comparatively few grey hairs on her head, and she is as alert and active as many a woman half her age. She has to be that way to care for that huge house in which she lives and attends to all soul alone—a place that serves as a hospice to tourists and to a couple of permanent guests.

"The only thing that makes me feel old is my eyes," says Mrs. Schneider. "I don't see as good as I used to."

Mrs. Schneider was born in Wittenberg, Germany, on July 11, 1869 and came to this country and to Manistique when she was a child of 13. Her father, August Miller, had come to this country some time before the rest of the family did, secured employment with the Chicago Lumber Company and when well established sent for his wife and family. On April 13, 1887 she was married to Matt Schneider. A daughter was born to them but the child lived only a few months. Mr. Schneider passed away in 1921.

Mrs. Schneider is perhaps one of the best known residents in Manistique and her home has, through the years been open to her friends. She has long been a faithful member of St. Francis de Sales Catholic church. Although she never was one to make a show of it, her good deeds have been many and are well known. One trait of good citizenship has also given Mrs. Schneider prominence in Manistique. For many years she has been the first resident in the city to pay real and personal property taxes.

A brother Joe, is the only other member of her family circle remaining in Manistique.

Briefly Told

Social—The Bethel Baptist Young People will hold an ice cream social on Friday evening, July 14 on the church lawn. The public is invited.

Considerable loss of weight and energy occurs when trout spawn.

Violet Freeland New School Board Member At Mueller

Township school elections held throughout the county Monday were, with one exception non-controversial affairs. The exception was in Mueller township where, in a three way contest, Mrs. Violet L. Freeland won over Leon Carroll for a place on the board. Leo Snyder, who is also a member of the board, won out with Mrs. Freeland.

In other townships there were no contests and the personnel of the boards remain intact.

First Communion At Engadine

ENGADINE—A class of children of the Engadine church will receive First Holy Communion at the 8 o'clock mass Sunday morning. At 4 the sacrament of confirmation will be administered to young people of Gould City, Nauenway and Engadine by the Most Rev. Thomas L. Noa, bishop of Marquette. Other Engadine Mission services Sunday are Nauenway, 9:30; Gould City, 9:30 and Curtis, 11.

Personals
George Crnkovich motored to Manistique Sunday to accompany home his wife and infant daughter, Nancy Kay who was born at Schoolcraft Memorial hospital Wednesday, July 5. Nancy Kay weighed seven and one-half pounds. Mrs. Crnkovich is the former Eleanor Butler. The new daughter has two brothers and one sister.

Mrs. Albert Truax returned from Flint Sunday after a visit with her son and daughter-in-law and their twins, a son and a daughter born June 6.

City Briefs

Spilling The Dope

By Charlie Larson

Sporting world's highest accolade is: "He was a grand sport." We can think of no more fitting tribute than that for John P. Norton, one of the finest bosses a guy ever had.

Because in late years his active interests were in other fields, notably farming, not too many Daily Press sports readers realize that they have lost one of their best friends.

Mr. Norton was an avid follower of sports, especially the Detroit Tigers. He was a charter member of the Escanaba golf club.

Whenever he missed hearing broadcasts of the Tiger games, he always called bright and early the next morning to find out how they came out.

He wanted Escanaba sport fans to have the best sport page possible within limitations of a small paper. He spared no expense in attempts to reach that goal. He frequently offered good, constructive suggestions for its improvement.

Besides his interests in sport, Mr. Norton was a square shooter. He gave us our start in newspaper work. Even when he gave us a severe dressing down for something we did that had displeased him, our respect for him never changed.

Persons of opposite political faith frequently were critical of his biting editorials. But whether you agreed with him or not, you admired him for having the courage of his convictions.

Mr. Norton's foresight and fighting leadership did much to make Escanaba a better community.

Those of us who were fortunate enough to have worked for and with Mr. Norton have gained immeasurably from that association.

He taught us to drive hard for what we thought was right, regardless of the opposition.

And that, we think, is the mark of a true sportsman.

Williams' Arm Fracture Lowers Boom On Boston

Sports Roundup

BOSTON—(P)—Ted Williams, the Boston Red Sox \$125,000-a-year outfielder, undergoes an operation for a fracture of the left elbow today, but his teammates still have their sights set on the American league pennant.

"There is a good possibility Williams will be out for the rest of the season," Orthopedic Surgeon Joseph Shortell said as he prepared to perform the operation at St. Joseph's Hospital in Cambridge.

But the Red Sox took the news of their lanky slugger's injury in the all-star game as "part of the game" and refused to admit they were out of the pennant race, although eight games behind the front-running Detroit Tigers.

"There's no filling Williams' shoes," said Manager Steve O'Neill in announcing Clyde Volmer, will take over left field and bat in Ted's No. 3 spot.

Termed "Very Serious"

Williams suffered his injury after hauling down Ralph Kiner's long smash in the first inning of the all-star classic in Chicago's Comiskey park Tuesday.

"I hit the wall with the heel of my hand," Ted explained. "But it was in the elbow that I noticed the pain."

Williams said the pain didn't bother him too much until he left the game at the end of eight innings. But then, he said, it started to ache and by the time he boarded a plane for Boston he had to keep it perfectly still and even then it throbbed.

X-ray pictures showed a fracture of the head of the left radius—a bone in the elbow.

Dr. Shortell described the injury as "very serious" and "very painful." He said Williams may have to undergo "a secondary operation to take out the whole head of the bone."

Watchful Waiting

Jack White of the football Yankees has been scouting and signing players in the southwest and reports that college coaches keep asking "what about that eight-man line." . . . Seems a lot of them are experimenting with Greasy Neale's method of stopping "T" plays, and they'd like to know how to beat that defense. . . . Jack's standard reply is: "Come to Philadelphia September 16. (That's when Neale's Eagles play the Cleveland Browns). Paul Brown will come up with something."

One-Minute Sports Page

Word just trickling in from Oklahoma is that four out of five starters on Hank Iba's A. and M. basketball team next winter will be sophomores. . . . Seems last year's frosh squad consistently outscored the varsity by several country miles. . . . Charlie Justice, who makes six speeches a week in his new public relations job with the North Carolina medical foundation, has turned down a bid to go overseas with a football clinic as well as an invitation to the Chicago All-Star game.

Pinch Hit Homers Win In Association

(By The Associated Press)

Two pinch-hit home runs won American association baseball victories for Indianapolis and Louisville last night.

Frank Kalin blasted a pinch-hit homer with one aboard in the 10th inning to give Indianapolis a 9-6 triumph over St. Paul.

George Wilson poked a pinch-hit homer with the bases full in the eighth inning to the Colonels a 6-3 decision over league-leading Minneapolis.

Columbus nipped Milwaukee twice, 1-0, and 3-1.

A Toledo at Kansas City double-header was washed out by rain.

Jake Plasters Italian Whiz

LaMotta Eyes Match With Sugar Ray

NEW YORK — (P)—Another Jake La Motta-Ray Robinson fight was in the making today following the middleweight champion's easy conquest of Italy's Tiberio Mitri.

La Motta was due to step into the offices of the International Boxing club this afternoon to pick up a check of around \$33,700 and to discuss plans for a sixth scrap with the welterweight king.

The Bronx Bull belted out a 15-round unanimous decision over Mitri in Madison Square Garden last night.

A surprisingly large turnout of 16,369 paid \$99,841 and rocked the roof with cheers. It was the biggest garden fight gate in a couple of years.

La Motta won only one of his five bouts with Robinson but all except one were very close.

There was no doubt about last night's decision. La Motta won just about as he pleased over the previously unbeaten invader. He made the handsome, 24-year-old Italian fight the LaMotta way and the end result was a pair of handsome shiners for Mitri and hardly a scratch for the Bull.

Mitri will get around \$11,500 to console him for his shiners and broken record.

Top U. S. Golfers Teeing Off Today

TOLEDO—(P)—A "sweet 16" of America's top-golfers tee off today in the \$15,000 Inverness invitational four-ball matches.

The 16 stars, all but one in the top 25 money winners, are split into eight teams. Each pair plays each other pair in 18-hole best-ball play.

Melvin (Chick) Harbert of Northville, Mich., and Bob Hamilton, the 1944 PGA champion from Landover, Md., are defending champions. They bump into Jimmy Demart of Ojai, Calif., and Jack Burke, Jr., of White Plains, N. Y., in today's single round.

Ben Hogan, current national open champion, and Chandler Harper the PGA victor from Portsmouth, Va., are the only notables missing.

BACK TO MARIETTA

MARIETTA, O., (P)—Marietta will be the scene of the "Poughkeepsie Regatta" on June 16, 1951—for a second straight year. This was decided yesterday by the board of stewards of the Inter-Collegiate Rowing association after a two day meeting at Cornell university at Ithaca, N. Y.

Cubs Draw Gladstone In Tourney

Tonight's the night!

The second in the three-game "championship" series between Escanaba Bears and Bark River will be played at city diamond at 6:30.

The Bears won the first of the current series in a tight ball game last week and Manager Leo Knauf made no bones about liking the defeat.

He's all set to deliver a haymaker at the Bears tonight to be sure his team will be in on the spoils at the third game.

Bark River probably will start Ray Menard or Ben Kleiman, both capable hurlers. Menard defeated Stephenson in the top Tri-county league game of the week last Sunday. Kleiman made things rough for the Bears in the last meeting before losing.

The Bears will be a little hard put for mound talent. Russ Hiltonen pitched Tuesday night against the Cubs and will hardly be in shape to go nine innings tonight. Joe Rademacher stepped on a nail and is not expected to be in shape tonight.

That leaves Jack Beck who, if he should falter, would not have suitable replacement.

Costner Pulls Fistic Upset

PHILADELPHIA — (P)—Ike Williams was expected to use George (Sugar) Costner as a stepping stone last night to a welterweight title fight with Ray (Sugar) Robinson. Instead, the lanky Costner thrashed the lightweight champ and emerged himself as a top contender for Robinson's crown.

Costner turned in the fistic upset of the year when he handed Williams one of the worst lickings the 135 pound titleholder ever received. The Camden, N. J., Negro simply smashed Ike into submission in a 10 round non-title scrap at Shibe park.

Sugar George clipped Williams with a vicious left hook in the third round and then went on to record a thumping triumph. Williams never was the same after that third round punch. He lost his reflexes and fought the final seven rounds on his fighting instinct and courage.

Williams rallied briefly in the seventh round and looked for a minute as if he would do the impossible and kayo Costner. He rocked George with a left hook—but he didn't have the stamina to follow up his opening and Costner regained the offensive.

George Greenholm, Waubesa league commissioner, was notified today by Manistique that Chatham's entry in the league failed to show up for the game Sunday. Greenholm said that probably meant that Chatham's team had folded although he had not received confirmation up to noon today.

Phillies Meet Cards In Big Scrap Today

(By The Associated Press)

The chips will be down tonight when Philadelphia risks its hard won first place in the National league against the second place Cardinals in the opening of a vital three-game series at St. Louis.

This is the big game of the day as the majors return to family feuding after the All-Star melodrama, although an important series opens tonight also a Yankee stadium.

Cleveland's Indians, a game and one-half back of the second place New York Yankees in the American circuit, have a three-game job at the stadium. The injury-riddled Yanks are three games back of the league-leading Detroit Tigers, who meet the Senators at Washington in another night tussle.

Roe Faces Cubs

But the Phillies vs. Cardinals affair dominates the scene, and upon the outcome rests temporary leadership in the National loop. The amazing Phillies, holding a one-game edge over St. Louis, are expected to shoot Curt Simmons (10-5) against Howie Pollet (9-5) in a battle of soupsaws.

The fast-stepping Boston Braves, slammung along in third place only two games out of the lead, are in Cincinnati for a night game with the Reds, and Johnny Sain with a 12-5 record is due to be on the mound for the Beantowners.

The Brooklyn Dodgers, in fourth place four and one-half games back of Philadelphia, meet in ever-troublesome Cubs in Chicago.

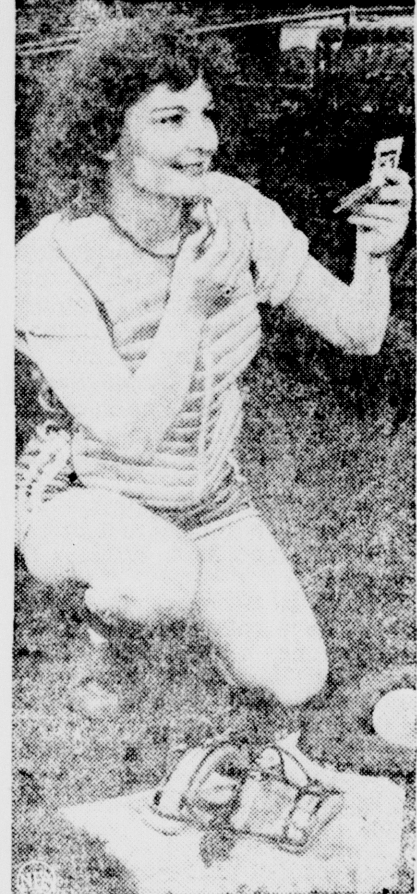

Preacher Roe, with a 10-4 mark, is scheduled for duty against the Cubs. For Brooklyn, it brings up a major mid-season question. Can the Bums bounce back after sticking up near the top for most of the first half of the season?

In the American league, the hospital list is drawing as much attention as the schedule, which sees the four western clubs in the east.

Blow To Sox

The loss of Ted Williams, who may be out for the season because of a left elbow fractured in Tuesday's All-Star game at Chicago, is a stiff blow to the Boston Red Sox. They meet Chicago in Boston tonight.

The Yankees also are consulting the physicians, with Joe Di-

LIP SERVICE — The players are interested in glamour and all that sort of thing, but this doesn't keep them from playing a red-hot game in Chicago's National Girls Baseball League. The Cardinals are in the cellar, but their catcher, Dorothy Whalen, keeps up appearance.

Little Detroit School To Play U. S. Champs

DETROIT—(P)—Lawrence Tech, a star among basketball's "small schools," is taking on the biggest of 'em all next season.

Tech announced today a game has been scheduled with City College of New York, NCAA and national invitational tournament champion. The game will be played here Feb. 3.

Tech is lining up a schedule of about 25 games.

HIGBY TO MINORS

NEW YORK — (P)—Kirby Higbe, veteran right handed pitcher with the New York Giants, was sold to Minneapolis for the American association yesterday.

Maggio, Yogi Berra and Hank Bauer doubtful starters against Cleveland. DiMaggio aggravated a groin muscle in the All-Star accident ward contest. Berra banged his knee at Boston 10 days ago and has been limping since, Bauer has a jammed ankle.

Detroit's Freddie Hutchinson (9-5) is scheduled to oppose Sid Hudson (8-7), at Washington, where the Tigers hope to make some pennant hay before coming in to Boston and New York later next week.

Detroit Starts Eastern Trip

Score Six Runs In Ninth To Nip Reds

WASHINGTON — (P)—The pennant-conscious Detroit Tigers invaded the east again today in a mood to battle to protect their three-game lead in the American league.

After the All-Star game layoff period, manager Red Rolfe's outfit resumes the campaign in a series opening tonight with the Washington Senators.

Freddie Hutchinson (9-5) is ticketed to pitch against the Senators' Sid Hudson (8-7).

Last night at Cincinnati the Tigers poured over six runs in the ninth to beat the Reds in an exhibition game, 12 to 10.

Paul (Dizzy) Trout's teammates gave him a big surprise. He won a ball game he thought he had lost.

The pitcher gave up after the eighth inning. But he took his shower too soon.

Trout had given up five hits and four runs in the eighth that gave the Reds a 10-6 lead.

But in the top of the ninth the Bengals put together five hits, a walk and a couple of errors by the Reds for the victory.

Detroit had to do a hurry-up job of getting Hal White ready to pitch the last of the ninth. White retired three in a row.

Frank (Pig) House's double scored the tying and winning runs for the Tigers.

Yachting Race On Final Leg

Entries in the Escanaba Yacht club's fourteenth annual cruising race were on their last leg of the affair today, heading from Sturgeon Bay to Menominee.

The cruisers looked anxiously at leaden skies as they shoved off, hoping they wouldn't run into the same foul weather that made sailing difficult yesterday. Some of the cruisers gave up yesterday and finished under power.

Max Murphy's Tahuna of Sturgeon Bay finished first yesterday ahead of Charlie Stoll's Rose of Sharon. Hope, owned by Frank Dory of Marinette, was third.

In the universal division, Renette IV, owned by Roger Williams of Marinette, was first and Atalanta, an R-class sloop from Chicago, was second.

COACH RESIGNS

PHILADELPHIA — (P)—The University of Pennsylvania is looking for a new football backfield coach. John M. (Jackie) Welsh, former Penn football basketball and track star who has held the position since 1916, said he was resigning to go into business.

Baby chick output in the U. S. increased 22 per cent in 1949 over 1948.

Sault Girl, 18, Tourney Surprise

Vonnie Colby Enters State Semi-Finals

LANSING — (P)—Hard-hitting Vonnie Colby, virtually an unknown in Michigan's major golf competition before her surprise showing in the women's state golf championship now in progress here, ran into a major test today in her bid for the state title.

The 18-year-old from Sault Ste. Marie was paired with the veteran Pat Devany of Detroit, whose chief golfing asset—like Vonnie's—is her powerful driving.

Their meeting took top billing in the semi-final round today, as Kalamazoo medalist Barbara Canine clashed with petite Mrs. Irene Bretzlaff in the other match.

The Colby girl, hitherto considered just a temporary surprise in the 1950 tournament, added considerable lustre to her golf accomplishments yesterday when she came from behind on the final nine to down the highly regarded Margaret Russell of Detroit, 1 up.

Miss Devany had a harder time in eliminating four-time champion Mrs. Don Weiss of Flint in their quarter-final duel, the Detroit girl winning 3 and 1.

Miss Canine scored a lopsided 7 and 5 win over Mrs. J. P. Staphchinskis of Birmingham.

Rain Halts Game As Paper Mills Win

Bob L'Houllier hit a home run and Paul Larson got three for four as the Paper Mills defeated Hughes Motors, 11-4, in a softball game at Royce park last night.

Larson pitched for the winners and Jim Fitzpatrick for the losers. Lindstrom of the losers also hit a homer.

The game was called in the sixth inning because of rain.

Foul Weather Hits Fourth Day

Entries in the Escanaba Yacht club's fourteenth annual cruising race were on their last leg of the affair today, heading from Sturgeon Bay to Menominee.

The cruisers looked anxiously at leaden skies as they shoved off, hoping they wouldn't run into the same foul weather that made sailing difficult yesterday. Some of the cruisers gave up yesterday and finished under power.

Airlift Needed To Rush U. S. Troops To Korea

By MARQUIS CHILDS

WASHINGTON — Across the vast watery distance of the Pacific a transport is carrying United States marines to reinforce hard-pressed American units in South Korea. At the very least those marines will be three weeks on the water from San Diego.

If that contingent of marines had been moved by air, they would have been in Japan in three days. But they could not be moved by air because there was not a sufficient airlift in being. This emphatically underscores one of the most tragic deficiencies of an emergency that finds so much wanting.

Economy is argued in favor of the slower method of transportation. But when all the costs are added, including the bill for a naval escort to protect the transport from random and unidentified submarines, this argument falls flat. And quite apart from actual cost accounting is the overall necessity to get there, in that familiar phrase, "fustest with the mostest." The longer the Korean war goes on, the more costly it is and the more likely it is to spread.

Using Commercial Lines

The defense department is taking some chartered space on the airlines regularly flying to Japan to carry men and materials. But this is nothing in comparison to the need.

Some months ago Maj. Laurence S. Kuter, head of the military air

transport service, authorized a spot check of foreign and domestic airlines to determine how much transport suitable for military purposes would immediately be available in an emergency. The answer that Kuter's experts came up with was approximately 10 percent.

This estimate was labeled top secret and put under lock and key. One reason may have been that it would furnish such obvious ammunition for those arguing the urgent necessity to create an air merchant marine. Cargo aircraft built with government subsidies and operating on domestic and foreign routes could be converted almost overnight to military transport.

But this proposal was vigorously opposed by most of the air transport industry. Spokesmen for the industry argued that there was no need for more cargo planes. Through the present system of mail pay, which is opposed by the Hoover committee on government reorganization, the industry gets a generous subsidy—estimated conservatively at \$50,000,000 a year. This is presumably, in part, to benefit national defense, although, as the Kuter study showed, the benefit is pretty small.

For nearly two years bills to create an air merchant marine have been kicking around Senator Edwin Johnson's committee on interstate and foreign commerce. But Johnson, who is a master of delaying tactics when powerful friends are involved, never got around to moving any of these air merchant marine bills onto the floor. The nearest to it is a bill providing \$12,500,000 for experimentation, most of which would go for development of jet passenger planes.

Chairman Hubert E. Howard of the munitions board testified last January before Johnson's committee that the No. 1 transportation deficit was in transport aircraft. Asked if he had any recommendations on how to meet the deficit, Howard replied in the negative.

Disclaimed Responsibility

Merely on the question of a study of how to get more air carriers, the Civil Aeronautics Board and the Pentagon passed the buck back and forth for months. Both disclaimed responsibility. A compromise was timidly put forward under which the prototype of a low-cost cargo plane would be

constructed and put in mothballs. To take such a prototype out of mothballs would require several weeks or months and then operational flying would be bound to show up "bugs" to be corrected.

Two months ago Langdon P. Marvin Jr., chairman during the war of an interdepartmental air cargo priorities committee, testified that 1,200 large-type transport planes would be necessary to make up the current deficit. He pointed to repeated reports of a Russian submarine fleet five times as large as that of the Nazis in 1940.

In some respects the Berlin airlift was almost too successful. It

gave people a feeling that we had what it took to do the job.

But the Berlin lift was only 250 miles long. At the peak of operation 5,000 tons a day were being transported. This war is 6,000 miles away on a narrow and difficult peninsula of the Asiatic mainland. The men who are fighting and dying in that war might be interested in knowing why there is no suitable airlift in being that could bring at least emergency help in a hurry.

A railroad penetrated from the east African coast to the Kilimanjaro mountain agricultural area in 1911.
